2026 FALL TRAINING CLASSES

HEATPUMP TROUBLESHOOTING

4 CFAD DISTRIBUTOR TRAINING HOURS

In this class we will be working with Puron Advance equipment, going over installation practices, longline applications, startup procedures, electrical troubleshooting, refrigeration cycle troubleshooting, controls, and factory updates. We will also cover why compressors fail, with the use of internal photos.

AVON

TUESDAY, NOVEMBER 24, 2026: 8AM-NOON
CLASS IS FULL

GREENSPEED HEAT PUMP 27VNA3 AND 26VNA1

4 CFAD DISTRIBUTOR TRAINING HOURS

This class will address the 27VNA3 and 26VNA1 high-efficiency heat pumps with Greenspeed Intelligence. We will cover controls, system operation, start-up, maintenance and troubleshooting. These heat pumps feature variable-speed rotary compressors driven by a variable speed drive. They use Infinity Touch communication controls for full variable-speed functionality, and are capable of setting up sub-cooling. An EXV is used in the heating mode.

AVON

THURSDAY, OCTOBER 29, 2026: 8AM-NOON

BASIC ELECTRICAL CONTROLS & TROUBLESHOOTING

4 CFAD DISTRIBUTOR TRAINING HOURS

In this class we will cover the fundamentals of electrical theory and how it applies to electro-mechanical controls operation. We will also review wire diagrams, sequence of operation, symbol descriptions, and troubleshooting equipment failures.

AVON

TUESDAY, DECEMBER 1, 2026: 8AM-NOON
Only a few spots left!

BASIC ROOFTOP SYSTEMS

4 CFAD DISTRIBUTOR TRAINING HOURS

This class will cover 48FE-Puron Advance and 48-50 FC and GC rooftop units 3-10 tons, control circuits and troubleshooting, Ecoblu fan operation and Belimo and Siemens Economizer controls.

MALDEN

TUESDAY, NOVEMBER 3, 2026: 8AM-NOON
Only a few spots left!

AVON

TUESDAY, OCTOBER 27, 2026: 8AM-NOON
Only a few spots left

NEW PURON ADVANCE R454-B REFRIGERANT

4 CFAD DISTRIBUTOR TRAINING HOURS

Learn about the application, safety, storage, and transport of the new A2L refrigerant—R454B (Puron Advance). Topics Include: Storage in facilities, Spark Proof Tools, Ventilation Fans, New Recovery Tank, Field Service Procedures, Evacuation Process, Dissipation Board Wiring and Service Equipment.

AVON

WEDNESDAY, NOVEMBER 4, 2026: 8AM-NOON

59 SERIES CONDENSING FURNACES

4 CFAD DISTRIBUTOR TRAINING HOURS

This class covers the 59 series furnaces, including combustion analysis, review of the Carrier Ductulator, duct velocity testing for retrofit applications, and use of the Cool Calc load calculation software. Additionally we will address recent furnace improvements, newly designed gas valves, water test procedures, the latest factory updates of IntelliSense technology, and the new NFC Boards.

2026 FALL TRAINING CLASSES

INFINITY TOUCH CONTROLS

4 CFAD DISTRIBUTOR TRAINING HOURS

This class reviews Carrier's Infinity User Interface (UI) residential control. The goal is to explain the different test procedures and application conditions for peak performance. The latest factory updates related to condensing units and codes will also be reviewed.

MALDEN

WEDNESDAY, OCTOBER 28, 2026: 8AM-NOON

TOSHIBA CARRIER VRF INSTALL, STARTUP & TROUBLESHOOTING

We will discuss the proper selection, installation, startup and troubleshooting of the world class TOSHIBA/CARRIER VRF products. Current and past generations of product will be explored with hands-on experience. Guides will be provided.

AVON

THURSDAY, NOVEMBER 19, 2026: 8AM-5PM

FRIDAY, NOVEMBER 20, 2026: 8AM-5PM
