2026 SPRING TRAINING CLASSES

HEATPUMP TROUBLESHOOTING 4 FAD DISTRIBUTOR TRAINING HOURS

In this class we will be working with Puron equipment, going over installation practices, longline applications, startup procedures, electrical troubleshooting, refrigeration cycle troubleshooting, controls, and factory updates. We will also cover why compressors fail, with the use of internal photos.

BASIC ROOFTOP SYSTEMS 4 FAD DISTRIBUTOR TRAINING HOURS

This class will cover 48FE-Puron Advance and 48-50 FC and GC rooftop units 3-10 tons, control circuits and troubleshooting, Ecoblue fan operation and Belimo and Siemens Economizer controls.

GREENSPEED HEAT PUMP 27VNA3 AND 26VNA1 4 FAD DISTRIBUTOR TRAINING HOURS

This class will address the 27VNA3 and 26VNA1 high-efficiency heat pumps with Greenspeed Intelligence. We will cover controls, system operation, start-up, maintenance and troubleshooting. These heat pumps feature variable-speed rotary compressors driven by a variable speed drive. They use Infinty Touch communication controls for full variable-speed functionality, and are capable of setting up sub-cooling. An EXV is used in the heating mode.

NEW PURON ADVANCED R454-B REFRIGERANT 4 FAD DISTRIBUTOR TRAINING HOURS

Learn about the application, safety, storage, and transport of the new A2L refrigerant—R454B (Puron Advance). Topics Include: Storage in facilities, Spark Proof Tools, Ventilation Fans, New Recovery Tank, Field Service Procedures, Evacuation Process, Dissipation Board Wiring and Service Equipment.

BASIC ELECTRICAL CONTROLS & TROUBLESHOOTING 4 FAD DISTRIBUTOR TRAINING HOURS

In this class we will cover the fundamentals of electrical theory and how it applies to electro-mechanical controls operation. We will also review wire diagrams, sequence of operation, symbol descriptions, and troubleshooting equipment failures.

59 SERIES CONDENSING FURNACES 4 FAD DISTRIBUTOR TRAINING HOURS

This class covers the 59 series furnaces, including combustion analysis, review of the Carrier Ductulator, duct velocity testing for retrofit applications, and use of the Cool Calc load calculation software. Additionally we will address recent furnace improvements, newly designed gas valves, water test procedures, the latest factory updates of IntelliSense technology, and the new NFC Boards.

2026 SPRING TRAINING CLASSES

For the World We Share

DUCTLESS TROUBLESHOOTING

4 FAD DISTRIBUTOR TRAINING HOURS

A comprehensive class containing multimedia and demonstrations. Students will learn about equipment types, theory, current install practices and precision troubleshooting.

INFINITY TOUCH CONTROLS

4 FAD DISTRIBUTOR TRAINING HOURS

This class reviews Carrier's Infinity User Interface (UI) residential control. The goal is to explain the different test procedures and application conditions for peak performance. The latest factory updates related to condensing units and codes will also be reviewed.

TOSHIBA CARRIER VRF INSTALL, STARTUP & TROUBLESHOOTING

We will discuss the proper selection, installation, startup and troubleshooting of the world class TOSHIBA/CARRIER VRF products. Current and past generations of product will be explored with hands-on experience. Guides will be provided.

AVON

WEDNESDAY, MAY 20, 2026: 8AM-5PM
