

WeatherMaker®

Heating and Cooling Products for Your Home

COOL, SUMMER COMFORT

WeatherMaker® Air Conditioners

Cool comfort is a concept we can all agree on. For example, who doesn't love the refreshing relief of air conditioning on a hot, summer day? Another concept most people can appreciate is value. That's why WeatherMaker offers three affordable central air conditioners. Designed for lasting durability, these smooth-running, energy-saving cooling machines deliver comfort you can count on from the very first time you turn them on.

WeatherMaker air conditioners deliver up to 17.0 SEER2 (Seasonal Energy Efficiency Ratio), depending upon the model. Similar to gas mileage for a car, SEER2 ratings let you compare fuel efficiency of air conditioners – the higher the SEER2, the better the efficiency. And you can expect the savings to continue for years because WeatherMaker air conditioners are designed, built and tested for lasting operation.

PA7TAN

Air Conditioner

- Up to 17.0 SEER2/ 13.5 EER2 cooling efficiency
- Efficient two-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- Non-ozone depleting R-410A refrigerant
- 10-year parts limited warranty*

PA5S

Air Conditioner

- Up to 16.5 SEER2/ 13.5 EER2 cooling efficiency
- Efficient single-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- Non-ozone depleting R-410A refrigerant
- 10-year parts limited warranty*

PA4S

Air Conditioner

- 13.4 SEER2/11.0 EER2 cooling efficiency
- Efficient single-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- Non-ozone depleting R-410A refrigerant
- 10-year parts limited warranty*

Don't Forget the Evaporator Coil

Your central air conditioning system includes an unsung hero that resides inside your home – the evaporator coil. The evaporator coil helps draw heat and humidity from indoor air as a part of the cooling process. Replacing this vital component as a part of your new air conditioner installation will help you enjoy all of the comfort, efficiency and reliability you expect.

CVPVA

- Cased V-Coil
- Upflow/downflow application
- 10-year parts limited warranty*

CVPMA

- Cased V-Coil
- Multi-poise application
- 10-year parts limited warranty*

CAPMP

- Cased A-Coil
- Multi-poise application
- 10-year parts limited warranty*

CSPHP

- Cased slab shaped
- Horizontal application
- 10-year parts limited warranty*

HEATING AND COOLING YEAR-ROUND

WeatherMaker Heat Pump and Fan Coil

When all-electric comfort is your best option, WeatherMaker delivers. Our heat pump works with our PF4M fan coil for quiet, efficient, affordable and dependable year-round comfort.

Offering the same durability as our WeatherMaker air conditioners, our heat pump keeps you comfy for years to come with up to 17.0 SEER2 cooling efficiency and 8.1 HSPF2 (Heating Seasonal Performance Factor) heating efficiency.

The WeatherMaker PF4M fan coil, with its multi-speed blower motor is matched to your home and your heat pump to deliver the perfect amount of airflow. This quiet and durable fan coil can even provide a potential efficiency rating boost on some system combinations.

PH7TA

Heat Pump

- Up to 17.0 SEER2/13.5 EER2 cooling efficiency
- Up to 8.1 HSPF2 heating efficiency
- Efficient two-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- 10-year parts limited warranty*

PH5SA

Heat Pump

- Up to 16.0 SEER2/12.5 EER2 cooling efficiency
- Up to 8.1 HSPF2 heating efficiency
- Efficient single-stage operation
- Durably built to withstand harsh weather and debris
- Designed for corrosion resistance and lasting performance
- 10-year parts limited warranty*

PF4M

Fan Coil

- Multi-speed blower motor
- Corrosion-resistant all-aluminum coil
- Convenient washable filter
- Fully insulated cabinet
- Sloped drain pan design helps reduce mold and bacteria buildup
- 10-year parts limited warranty*

* The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate for complete details and restrictions.

WARM, SOOTHING WINTER HEAT

WeatherMaker Gas Furnaces

When winter's chill arrives at your door, kick it to the curb with warm, soothing winter heat – from WeatherMaker. Offering five distinct models to choose from, WeatherMaker gas furnaces fit a variety of budgets, all with our focus on quality, value and affordability. From our two-stage, variable-speed, ENERGY STAR® certified PG96VTA down to our most basic model, WeatherMaker gas furnaces answer the call for warm indoor comfort.

WeatherMaker gas furnaces offer a range of efficiencies with our highest model achieving up to 96% AFUE (Annual Fuel Utilization Efficiency). Similar to gas mileage for a car, AFUE ratings let you compare fuel efficiency of furnaces – the higher the AFUE, the better the efficiency. In addition to the savings, our two-stage, variable-speed models offer a more premium heating experience with smooth, quiet and consistent comfort.

TWO-STAGE, VARIABLE-SPEED GAS FURNACES

PG96VTA

Gas Furnace

- ENERGY STAR® certified, up to 96% AFUE heating efficiency
- Two-stage gas valve for high and low heat
- Variable-speed blower and inducer motors adjust to changing conditions
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG80VTL

Gas Furnace

- 80% AFUE heating efficiency
- Two-stage gas valve for high and low heat
- Variable-speed blower and inducer motors adjust to changing conditions
- Aluminized-steel heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

SINGLE-STAGE, MULTI- AND FIXED-SPEED GAS FURNACES

PG95ESA

Gas Furnace

- ENERGY STAR® certified, up to 96% AFUE heating efficiency
- Single-stage operation
- Fixed-speed blower motor
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG92ESA

Gas Furnace

(Select Sizes)

- ENERGY STAR® certified, up to 92.1% AFUE heating efficiency
- Single-stage operation
- Fixed-speed blower motor
- Aluminized-steel primary heat exchanger
- Stainless steel secondary heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PG80ESA

Gas Furnace

- 80% AFUE heating efficiency
- Single-stage operation
- Fixed-speed blower motor
- Aluminized-steel heat exchanger
- Fully insulated cabinet
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

* The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate for complete details and restrictions.

HEATING AND COOLING IN ONE CONVENIENT PACKAGE

WeatherMaker Small Packaged Products

Don't let the name fool you. In the heating and cooling industry, they are often called "small packaged products" – but there's nothing small about them. Designed for either rooftop or ground-level installation, WeatherMaker small packaged products include both the indoor and outdoor sections of a standard split-system in one "convenient" cabinet.

If you prefer the cozy comfort of gas heating combined with central air conditioning, the PY4G is the perfect choice. For all-electric, year-round comfort, or when outdoor space is at a premium, the PH4Z narrow-lot heat pump can be a great fit. Offering up to 13.4 SEER2 cooling efficiency, 81% AFUE gas efficiency and 6.7 HSPF2 heat pump heating efficiency, these small packaged products can deliver value, reliability and comfort in a very big way.

PY4G

Packaged Gas Furnace and Air Conditioner

- 81% AFUE heating efficiency
- 13.4 SEER2/10.6 EER2 cooling efficiency
- Multi-speed blower motor for improved temperature and humidity control
- Durably built to withstand harsh weather and debris
- 10-year parts limited warranty and 20-year heat exchanger limited warranty*

PH4Z

Packaged Heat Pump

- 13.4 SEER2/10.6 EER2 cooling efficiency
- 6.7 HSPF2 heating efficiency
- Efficient, single-stage operation
- Louvered hail guard and raised coil design for protection against harsh weather and debris
- Ground level, narrow lot installation
- 10-year parts limited warranty*

RELIABLE COMFORT, NO DUCTS REQUIRED

WeatherMaker Ductless System

Regardless of your need – older home, room addition, or a converted space – WeatherMaker ductless products are a great solution for your comfort needs. WeatherMaker ductless products can be used to supplement your current system, or for areas where traditional ductwork is either non-existent or difficult to install.

The WeatherMaker 38MHRBQ heat pump delivers money-saving, high-efficiency comfort up to 19.8 SEER cooling and up to 10.6 HSPF heating. That's higher than most traditional air-source split-system heat pumps! This compact outdoor unit pairs with the WeatherMaker 38MHHQ high wall indoor unit to create an affordable, efficient and reliable ductless solution for comfort all year long.

38MHRBQ

Ductless Heat Pump

- Up to 19.8 SEER2/11.2 EER2 cooling efficiency
- Up to 10.6 HSPF2 heating efficiency
- Inverter-controlled, variable-speed compressor
- Quiet outdoor operation, as low as 50.5 decibels (select sizes)
- Piping length up to 164' for versatile/flexible installation
- 10-year parts limited warranty*

40MHHQ

Ductless High Wall Indoor Unit

- Quiet indoor operation, as low as 27 decibels (select sizes)
- Four fan speeds
- Sleep Mode
- Follow Me (senses temperature at handheld remote)
- Heating Setback (46° F heating mode)
- Up-down louver airflow control (fixed or swing)
- 10-year parts limited warranty*

* The limited warranty period is five years if not registered within 90 days of installation except in jurisdictions where warranty benefits cannot be conditioned upon registration. See warranty certificate for complete details and restrictions.

Weathermaker products are affordable and dependable. Homeowners choosing Weathermaker products enjoy saving money on their purchase, and the benefits of a dependable product that will perform season after season.
