

**iWave®-M Mini-Flexible Air Purifier for Ice Machines**

- Versatile ion needles mounted in a flexible bar circuit
- For HVAC cooling coils up to 36" wide
  - Kills mold and mildew—keeps coil cleaner
  - For ductless systems (mini-split, PTAC) and ice machines
  - Chemical and temperature resistant, durable for long service life
  - Voltage input 110VAC to 240VAC

1 each	4900-35

**Nickel-Safe Ice Machine Cleaner**

The original Nickel-Safe Ice Machine Cleaner. It is a food-grade citric-phosphoric acid product for removing scale deposits from ice machines having nickel-plated or tin-plated evaporators, and it is acceptable for use in all ice machines containing nickel. It mixes to form a green solution, which makes rinsing easier. USDA approved.

16 fluid ounce bottle	4287-34
1 gallon bottle	4287-08

**Liquid Ice Machine Cleaner**

Liquid Ice Machine Cleaner is a food-grade phosphoric acid that is fast acting, yet safe to use. It has been formulated to remove scale deposits from ice machines and coffee urns. It does not give off any harsh fumes or contain chlorine or chlorides that would attack stainless steel. USDA approved. NSF registered.

8 fluid ounce bottle	4207-47	<b>NSF</b>
1 gallon bottle	4207-08	

**IMS-III Sanitizing Concentrate†**

IMS-III is an EPA registered sanitizing concentrate formulated to sanitize hard, non-porous surfaces and to eliminate odors and slime growths. No rinsing is required when diluted to 1.6 ounces per gallon. Formulated for general use in ice machines, ice cream dispensing equipment, and other food processing equipment.

16 fluid ounce bottle	4211-34

**6Rsp Micromet®**

6Rsp Micromet is a slow dissolving phosphate specifically formulated for inhibiting scale in ice machines and other equipment using low volumes of water. It is used in Nu-Calgon scale controlling cartridges and requires replacement once every six months. Typical dosage is 8 ounces per 500 pounds of ice (50 gallons of water) a day.

50 lb. pail	4265-50	<b>NSF</b>

**Heads**

**QL3B Single System Head**

Used with any Everpure filters. Head includes a water shut-off valve with mounting bracket and screws. (3/8" NPT)

1 each	4621-07
--------	---------

**QC7I Single Head**

Ideal for all Everpure filters. Head includes a shut off valve, flushing valve, and outlet pressure gauge on a box bracket design. (3/8" NPT)

1 each	9272-41 (4621-01)
--------	-------------------

**QC7I Twin Parallel Head**

Dual filter head that is parallel plumbed for two Everpure filters, either mix or match. Head includes a shut off valve, flushing valve, and outlet pressure gauge on a box bracket design. (3/4" NPT)

1 each	9272-22 (4621-02)
--------	-------------------

**QC7I Triple Parallel Head**

Triple filter head parallel plumbed for three Everpure filters. Head includes a shut off, flushing valve, and outlet pressure gauge on a box bracket design. (3/4" NPT)

1 each	9272-23 (4621-03)
--------	-------------------

**QC7I Quad Parallel Head**

Quad filter head parallel plumbed for four Everpure filters. Head includes a shut off valve, flushing valve, and outlet pressure gauge on a box bracket design. (3/4" NPT)

1 each	9336-11 (4621-04)
