Are You Still UL Safe?

Using A Non-UL Recognized Service Compressor Could Invalidate The Original UL Listing For Your Entire Air Conditioning System.

Only Genuine Carlyle Service Compressors offer something no rebuilt Carlyle compressor can match: Official UL Recognition. That means every Genuine Carlyle Service Compressor has been built to comply with internationally recognized safety standards, minimizing the risk of fire, electric shock, or other safety hazards. UL also conducts ongoing, unannounced audits at our facility four times a year. This ensures that Genuine Carlyle Service Compressors meet the most widely recognized and trusted safety standards in the industry.

Don't take the risk of using a non-UL recognized service compressor. Remember, if the  symbol does not appear on the compressor nameplate you are not taking advantage of the "peace of mind" that only UL Recognition brings.

Ask your distributor about the difference between a rebuilt compressor and a Genuine Carlyle Service Compressor. Then ask yourself why would you settle for anything less than the one that is UL Recognized.

For help in finding a Carlyle Distributor near you, visit us at www.totaline.com or call 1-800-28-HVACR.

Make Sure Your Service Compressor Has the UL Recognition It Needs To Meet Safety Code Requirements That Guard Against Fire And Explosions!

Total Reliability... at a Totally Competitive Price.

When you need a reliable standard efficiency compressor at a competitive price, there's only one place to turn: Totaline. Our new line of remanufactured Compressors have all the features you need at a price that can't be beat.

- A no-hassle warranty that's backed by Carrier Corporation, the world's largest manufacturer of air conditioning products
- Built to the exact Totaline remanufacturing specifications set by engineers at Carrier Corporation
- Suction cut off unloading capability
- Standard efficiency motor
- Standard efficiency primary running gear
- Dual and triple voltage
- Brand new critical wearing parts
- Electrical components upgraded to the latest design standards
- Electrical components meet UL standards
- All Totaline compressors are run-tested
- Electrical testing of motor insulation checked at 1000 volts plus 2x nameplate voltage
- All Totaline compressors are pressure-tested to UL requirements to ensure product safety
